

EXPERIENCE

Lithios Apps

(Feb 2022–Present)

Product Designer (Contractor)

- Currently designing end-to-end experiences for a mix of client sizes at the Lithios design agency.

Palantir Technologies

(June – Aug 2022)

Product Design Intern

- Designed a new end-to-end workflow that enables live-entity proximity alerting.
- Re-designed the live-entity observation log to be able to provide users insights, and also be better adapted for a greater scale of data.
- Presented to multiple stakeholders at Palantir including the design “Group Lead” (Director of design).

Intuit

(Sept – Dec 2021)

Product Design Intern

- Helped introduce upsells to the Canadian Turbotax product. This addition was set to increase average revenue per user (ARPU) by 10\$+ for the business.
- Conducted user tests and prepared UX research reports that impacted in-product and marketing website design decisions.
- Designed and shipped key pages for TurboTax Canada’s 2021 remodel.
- Built responsive components in Figma allowing the XD team to design at 1.5X the previous speeds.

University of Toronto

(Feb – June 2021)

UX/UI Bootcamp Assistant Instructor

- Facilitated growth of 30+ driven students in design, with a 90% certificate obtention rate.
- Aided students in the comprehension of : user-centric design, research, prototyping, wireframing, storyboarding, HTML5, CSS, interaction design, JavaScript basics etc.

SUMMARY

I am a Product Designer and systems enthusiast who embraces a holistic design approach. Of course, I’m quite passionate about solving complex problems with innovative solutions.
